

Golden Honeymoon Memories 1939

January 31, 1993

What a glorious thought! A second Honeymoon in Niagara Falls! My husband and I spent 2 days of our Honeymoon in Niagara Falls. What an adventure for a 18 and 23 year old Couple! I'm afraid we couldn't enjoy it as much as we should have, due to tainted gravy on our mashed potatoes at dinner, we were so sick the first night there. The second day was beautiful, a ride in the horse drawn carriage and the beautiful Falls at night. Our old Chevy took us over 2000 miles, we spent only \$50, had to purchase a new tire, but we were happy newly-weds, seeing the beautiful Falls and getting acquainted! It has lasted 53 years! Praise God for His

Goodness. The ride on the
Maid of the Mist was a big
thrill. We remember finding
the Honeymoon Cabins upon
our arrival and thought that
was the place to stay.

Incidentally, the tainted dinner
was eaten on the Canadian
side - not New York! We
have many happy memories
of those days at the falls.
We would be delighted to
have another chance after
all these years.

Sincerely yours,
Dorothy and George
