Nagaria Falls Review

Mr Van Katen,

Upon reading an article in
the Kelowna Courier about Honeymoon
Memories in Nagaria Falls I felt
compelled to write and reveal some of
our memories.

We were married in Nov 4 1951
and being very young at the time
had heard that one of the nicest places
to go was Nagaria Falls for your
honeymoon.

We had very little money and as
I worked for the C.N.R. we received
one free pass a year, we decided to
make this incredible trip.

Nagaria Falls certainly lived up
to its reputation as it was the most
spectacular sight we have ever seen

Not having that much money we were unable to take a tour on the Maid of the Mist so we walked to the different spots.

We were two young kids that have never left home so we consequently stayed in our hotel all evening. After our return people asked us if we saw the lights of the falls our response "What lights?"

We finally did see the lights when we took our 3 children back several years later.

Spending all our money we had to trade comic books that people left on the seats for apples (at that time there were Newsies on the train) We were quite hungry by the time we came back home in Saskatchewan.

After forty some years these memories still stay with us and the kindness of the people to two young married kids will last for our lifetime.

Perhaps if more people had started
their married life with these
different experiences they may
have been as successful as we
were in having a long and happy
married life.

Thank You
E. B. CORHAM
