April 9, 1976 John and I were united in marriage. Sunday April 11 we arrived in the romantic city of Niagara Falls, Ontario.

It was late afternoon, so we drove around to see where we would like to stay, we decided on the Sheraton Fox Head and got a room over looking the falls and beautiful gardens.

The falls this time of year is so different than summer with the ice and water.

Our next decision was where to eat, we made our decision on the Skyler, with the revolving dining room. It sure was a good choice.

The view was fabulous and the prime rib was the best we have ever eaten. After dinner we returned to our room where I was surprised to find a dozen red roses waiting for me, John had asked when we checked in, if they would order the roses and have them in the room when we returned.

The next few days were filled with sight seeing. We made our way through museums and stores, seeing many wonders of the world.

We took movies of the things we saw and watch them over and over again, reliving the

special beginning of our lives together.

One experience we had which turned out to be funny, was after the fourth night around one o'clock in the morning and we could not sleep because of a strange noise, John was quite upset, he opened the balcony doors to see what was going on, and much to our surprise it was the roar of the falls, which we had not heard earlier in the week.

All in all we had a great honeymoon and I would recommend Niagara Falls to anyone.

There were so many things to do and see and all the people are ~~so~~ friendly.

We have been back with our little girl to show her where we had our honeymoon and where we began our life together.

Thank you for this opportunity to let you know how much we enjoyed ourselves.
