

1986

Darlene & Steve's Perfect Honeymoon at Niagra Falls

on Oct 10, 1986 Steve and I were married, the second marriage for us both. Being Blue Collar workers, in our 40's with 5 Children between us, we knew we needed a Honeymoon; but one that was within our budget.

As Wedding Gifts we received only money. Steve gave me full charge of the plans. 3 months before the Wedding, Niagra Falls came to my mind. So on 10-10-86 we packed my Father-in-Law's 1960 Camper, pulled by our 75' Plymouth and 7 hours later we were at Niagra Falls.

The weather was mid 50's to 60. We were able to cook & eat our meals outside.

We were like a couple of love-struck teenagers. First the Falls, the bus tour and the boat ride under the Falls took ^(our) my breath away. That evening a romantic dinner at the top of the Revolving tower.

The next day we decided to just walk and explore the shopping area. Much to our

Surprise, there it was "Elvis Museum". Oh my, my heart skipped 2 beats. Me being an Elvis fan, I knew my husband was the man for me after he tagged along while I posed for pictures he was taking,

and everyday we have a reminder of our "Perfect Honeymoon" at Niagara Falls; the picture we had taken by the photographer with us framed in a heart and the Falls in the background.

and I might add, the whole Honeymoon came well within our budget. It cost us \$250

and we are, after 6 $\frac{1}{2}$ years, still on our Honeymoon.
