

1986

We where married May 3 1986 in a small town called Tillsonburg Ontario. We are located about one an half hours from the Falls.

Since my husband does not appreciate the technology of flight we where lucky the Honeymoon Capital was so close to us and my husband was happy to take advantage of the technology of the wheel.

We spent 4 days in the falls and our first night was a great beginning. We where set up in a exotic room called "The Blue Room" which was just newly decorated with a new section added on to it. Feeling like the Motel knew of our new beginning in life together they gave us a new room to start it in. My husband and I agree that we would try to leave it with a good impression for only the walls and furniture to talk about. We also learnt new things in that suite such as they do make showers for two and mirrors give everything a new meaning.

We felt like celebrities during our stay such as room service. With only one button to push for anything our hearts needed, they almost knew we might not have enough strength to push anymore numbers. The restaurant like "The Love Boat" was unique due to the fact it was like a movie scene. a boat on the street everyone looking like boat hands or mates and a meal so romantic and perfectly prepared. Also ordering over the phone "A Picnic in the Park" was great. This basket was delivered to our room with everything from the spoons to the checker blanket. Being to cool out for the picnic we unvented "Picnic in the Blue Room".

Still having this basket brings back special memories
and hoping this basket lasts forever.

My husband and I noticed everyone in Niagara Falls
on our many strolls all over, had this mysterious
grin among themselves. Making us wonder if
we were all honeymooners or was it just in the air.

Three months after our honeymoon we were asked
to re-enact our wedding in rock gardens for photo
purposes for a wedding calendar. It was our
pleasure to put back on our wedding best to breathe
the air of Niagara Falls.
