## Golden Honeymoon Memories

On Jan. 19, 1946, we were married and planned our Honeymoon in Niagara Falls.

This was a question for us to make up our minds if we went to the Falls, or a living room set? The Falls was chosen, and we were very happy with this decision.

One thing happened we had planned on driving, but on this day Jan. 19<sup>th</sup>, his engine Block cracked, so we took the Train.

We stayed at the Ford Hotel and the toilets were in the Hallway. and had to be shared with everyone.

We took an Elevator down to the Falls, with Rain Coats to be put on. It was cold but a nice experience to see.

We went to a Show, and they also played Bingo, one number away from \$1,000.

No camera! but these memories are as clear as pictures!
