

Hello,

My name is Kelly Schlegel. My Husband Kevin and I Honeymooned in beautiful Niagara Falls from June 3rd through June 10th 1991.

Right from the start we were suprised at how lovely the area was, and the cleanliness we actually saw people sweeping the streets! Everywhere we went we noticed how nice everything looked. You dont see that in the United States.

After we unpacked we set off to look around. Being on a limited budget my Husband didn't want to go on a tour. However within 3/4 hour we were booked on one and had a Great time! we saw the old monastery, the floral clock (that did not have the summer flowers planted in it yet) and the Oakes Estate with the nine hole golf course in front yard. we also visited several museums, I do believe the tour showed us ^{alot} ~~atto~~ more than we would have seen had we gone on our own. At the end of the tour we recieved a Honeymoon certificate signed by the mayor and the President of the visitor and convention bureau.

We stayed very close to the falls and did alot of walking. We felt very safe wherever we went, there were people everywhere. we saw the Falls many times a day. I found the Imax theater very interesting, and we took lots of pictures at the waltzing water light show.

Well as you can see we saw alot and had a wonderful time. We now have two children and I am looking forward to bringing

2

them to Niagara Falls when they get older
we both wish to thank the people of
Niagara Falls for making our Honeymoon
such a wonderful time, and unforgettable, we
talk about it to family and saved papers and
postcards for the kids. we cant wait to return!!
