

1964

We were married on June 20, 1964. We were supposed to drive to Cape Cod to spend our honeymoon there. While driving through New York State (from southern New Jersey) we impulsively drove to Niagara Falls! We've never regretted the decision.

We've been married nearly 29 years (this coming June)

We've been back to Niagara Falls and have taken our three children with us. We haven't been to Cape Cod, ever.

Our children were impressed by the beauty, power, etc of the Falls and the area itself.

On our honeymoon we stayed at the Quality Inn. I got food poisoning a few days after I got there and spent 2 days throwing up, etc. The

2.

ltd staff and the local doctors
were very kind and supportive
I'll never forget them.

The second time we went
back and took purchase,
I got to see and do many
of the things I missed
on my honeymoon because
I was ill. I would
sit in the car in parking lot
on my honeymoon while my husband
went to the Falls or took the
boat ride. When we took our
children to the Falls, we stayed
at the Edward Johnson's.
It was a much better trip
but still the first time
was special to my husband
and me, (even though I was ill)
He would love to go
for a third trip
and without our three
teenagers!
