To Whom It May Concern:

Mention "Honeymoon Memories" and a smile appears on my face of the two luxurious days of being pampered not only by my new groom, but the Merchants of Niagara Falls, Ontario.

When we arrived in our "Honeymoon" suite, the round bed and the in-room hot tub were fantastic along with the complimentary bottle of champagne - what better way to relax after a four hour drive in a jacuzzi tub and glass of bubbly!!

After a few hours, we took a leisurely stroll down to view the Falls - what a sight!! We had heard the illumination would be breathe-taking so we would go out for dinner and come back once more for the view.

Back in our room, we had quite a list of options for dining pleasures in your fine city. As would be the case, time was short, and we decided to dine in the Skylon Restaurant.

Upon our arrival, we were escorted to a lovely table by the windows, unbeknownst, to me the restaurant revolved what a thrill to view the the falls and of course the downtown area as well.

Your fair city merchants were most gracious at wishing us well once they learnt they had honeymoon couples visiting their fine stores and services.

The next day was spent meandering the downtown area and of course Madame Tussord's wax museum. Pictures were being taken by the roll so that we would be able to reflect our fine time.

This night, we decided on yet another fine place to dine. Casa D'Oro proved to be just another delightful restaurant. A lovely evening of dinner and dancing was enjoyed and we went back to our "honeymoon suite" to relax in superb room.

....2/

After a restful nights sleep and a delicious breakfast it was time for us to check out and head home - much to our dismay.

But not without some adventure - you see we had a locked a gas cap and the key had broken off - so on a Sunday morning we're leafing through the yellow pages at a telephone booth trying to find a locksmith to open our tank. What a time - nevertheless one came to our rescue, his company name, I can't recall but he did make us laugh at our situation.

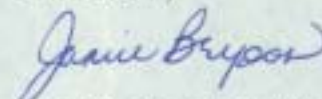

Once we had fueled we were headed home.

Upon our arrival in Belleville, our pictures all used, I decided to take advantage of one of these mail developing promotions at the time. All three rolls of films were deposited in these envelopes and mailed Sunday evening. Well, after a few weeks, no pictures had been received I did note the name of the company and made a call to see if they had received the films - much to my disappointment they had never reached their point of destination. You can imagine my state of mind - truly sorry that the only memories I have are the ones invisioned in my head.

It is my hope that we, both my husband and I, will be in a financial position to re-live our Honey moon in your wonderful city this December for our Eleventh anniversary - it was to be relived this past year, but with the recession we had to postpone our plans.

I wish you well in your reinvination of Niagara Falls the "Honey-moon" capital as I would recommend this a fine place to go. It has been a pleasure to share some of our experiences after all these years.

Sincerely

Janice Bryson (Mrs.)
