Dear Mr. Burton:

My husband and I
were married on June 12, 1961.
I turned nineteen the day
before and he was twenty-two
years old. We planned our
honeymoon for Niagara Falls.
He had both been to Niagara
several times as children,
(hasn't everybody) but wanted
to experience the excitement
and wonderment of the site
together as man & wife.

At that time we could
only afford to stay in a
motel for four nights.
Two nights at the Sherbrook
and two nights at the
Panorama Motel. I wonder

if these places still exist today?

Anyway, it was an exciting and romantic time for both of us! We enjoyed all the sites of Niagara by limousine, and were joined by two other honeymoon couples. It was great. Two people starting out together in married life. It was scary, but exciting.

Well, time went on, and with God's help we celebrated our 25th anniversary in 1986.

Guess where we went?

Right! Back to Niagara.

But this time we stayed at the Foxhead Hotel on the top floor overlooking the falls. What an incredible view!

We saw six wedding parties taking pictures in Cakes

Gardens. Boy, did that bring back good memories. It would be great if we could go back to Niagara for another honeymoon! You're never too old, right?

We have had 31 years of marriage. Mostly good, some not so good. But through all the years, we are still together. God blessed us with two daughters. The oldest is married and has two children, a boy and a girl. And our sixteen year old is a senior in high school and still lives at home. We are blessed. We have found through all the years, good and bad, that we have many memories, and that is something that no one can take away from you.

God has blessed us
with a long and fruitful
marriage. In this day and
age, we believe that is a
great accomplishment, and
we are proud! We are not
financially well off, but we
feel we have something
that money can't buy!
Thank you for your time,
Mr. Bertou.
