"Bob and Cathy's Annual Honeymoon"

On a beautiful sunny day in May of 1953, Bob and I were married, and went on our honeymoon to see Niagara Falls for the first time as man and wife. We visited both the American and the Canadian side, and it was all just "so wonderful and breath-taking" - each day we would spend our day - just looking in awesome wonder at the beauty of it all, and of course at night to view the different colors of lights on the falls - it was all so romantic. We stayed at a little Motel on Lundy's Lane, and ever since that special time, we've always tried revisiting there at least once a year, and each time, we always find new things to see and do - one time we went on The Maid of the Mist.

to recapture that same wonderful feeling that only happens, when you're on your honeymoon, and each time we truly enjoy our honeymoon all over again. There's nothing more wonderful than going to Niagara Falls, whether it's in the winter, spring, fall, or summer - you'll fall in love with each other again and again, and leave there with a warm glow in your hearts. We enjoyed visiting the quaint little shops, and purchasing souvenirs and just browsing around. I especially remember the "Deer Figurines", which my new hubby at that time promised he would make them into lamps when we got home. Well, he never did, but it didn't matter, for all we ever needed

was just taking a trip up to
Niagara Falls, and that will
always "light up our lives."
