

Our "honeymoon memories" of our trip to Niagara Falls will always be one of the best. It was September 4th 1950 that we had a terrific trip, to see Niagara Falls after being married Sept 3rd. We had heard how fabulous they were and something to see + remember forever. Now that we have seen them, they truly are! Everyone should see these beautiful falls sometime during their life span.

We rode the "Maid of the Mist" and it was just awesome. Being a resident of Manchester, New Hampshire and had never been anywhere out of state, we can honestly say to all newlyweds the Niagara Falls is a good investment to capture great Memories.

We stayed in a Motel and enjoyed both U.S. and Canadian sides of the Falls. Both Countries should be proud of the American Falls + Horseshoe Falls.

What can we say, the Niagara Falls left a great impression on us and even now, we are a happy couple that definitely would suggest to any honeymooners to go + enjoy the Niagara Falls!

Sincerely,
Sally Hall
