

1971

On this day April 10th 1971, I Wendy Paulette Cole Joined hands in marriage with Reginald Antonio Roussel. It was a small but beautiful wedding, with Shirley Bayne as my Maid of Honour. Shirley's mom made both dresses, Shirley wore a green Chiffon floor length dress, I wore a floor length gown of silk and lace. And Gabriel Pelletier was Reg's Best Man. Both men wore black tuxedo's. Reverend C. Rodan Evans presiding over the ceremony. Our reception was held at my mothers home, about twenty-five people attended.

Reg and I left my mothers house around 7pm to catch a bus to Niagra Falls for our honeymoon. Through human error we stopped at Ste Catherines. So we took a cab from there to the falls arrived 10pm. Reg was sick for the rest of the eving, he was car sick. Sundy was Easter Sunday, we awoke had breakfast and then started walking aound the falls looking at all the sights. We seen the cable car that goes across the falls, Maid of the Mist boat. Didn't have a chance to go on them because they were closed for the season. Then Reg and I took a tour around the falls. We saw the Horseshoe Falls, the flower clock and the green house. The green house was filled with beautiful Easter Lillies and a statue in the middle of it (it was cupid). The next day Reg and I toured the musems like Ripley's Beleive it or Not Madame Tuseau's Wax musem. At Madame Tuseau's we seen many celberties in wax like John Wayne and Dolly Parton. On Tuesday the owners of the motel where Reg and I were staying at asked if we wouldn't mind moving to another motel because they were going on vacation. That afternoon we walked around the falls though it was quite warm the spray from the falls was cold. Reg and I met a nice couple they asked if we would take their picture with their camera and in return they took our picture.

The next day Reg and I took a tour under the falls, we went to the other side of the falls. Heard stories of how men would be dare devils by going over the falls in barrells and other contraptions. That evening we saw the falls lit up at night, how romantic it was walking along the falls. Thursday Reg and I went up in the skylon Tower looked through the big binoculars, we could see as far away as Niagra Falls New York, Reg and I ate Supper in the revolving resturant at the top of the tower. On Friday in the morning we went shopping for souvenirs to take back home with us. Late in the afternoon Reg and I left for home, taking back with wonderful romantic memories of our honeymoon. This year we are celerbating our twenty-second anniversary. OUR anniversary is the same this year as when we got married in 19971 at Easter.
