Dear Sir:

I noticed your article in our newspaper last week to the Editor - Journal Pioneer, Summerside Prince Edward Island.

I thought I'd write my thoughts of our Honeymoon to you.

We were married June 1st, 1974 in Toronto, Ontario and spent our honeymoon in Niagara Falls.

I remember standing by the falls & just looking out over them watching the water rush by & thinking about my life to come.

I was a bundle of mixed emotions. Happiness, scared<sup>etc</sup>, questions popped into my head & I didn't know the answers. What was ahead for us - jobs, home, kids - our life together.

I stood there for a long time & just let my thoughts wander.

I'm happy to say that we will celebrate our 19th Anniversary this year. We have 3 beautiful children which we are very proud of. We have had a good life together & grown together. There have been many roads we crossed - some smooth - some bumpy - but we work together as a team and realize its a two way street in marriage. We love each other more today than we did 19 years ago. We have come a long way since I'd love to see the "Falls" again I'd probably go back & look out over the water again & watch it fall & let my mind wander again towards the future & what may lay ahead for us. Grandchildren, marriages, careers, retirement - life itself.

Seems like yesterday I was there - where did the time go? Where do the falls go?

Sincerely,

Jeanne R. Homans
