"Golden Honeymoon Memories"

Our honeymoon in Niagara Falls was one of the most memorable times in our life. Being my husband Bill and I were only eighteen years old at the time, going to New York was quite adventuresome in itself. We had never been out of our State of Indiana.

We will be married for twenty-eight years this coming September twenty-fifth. I often thought of our honeymoon in Niagara Falls and how beautiful and exciting it was. We had stayed at the Hilltop Motel and remember being so amazed at the side by side motels. It was only a block from the Falls, so walked there often and was especially spectacular at night with the colored lights on them. It was just so romantic.

I also remember touring the magnificent Floral Clock with its thousands of beautiful, colorful plants. We were just in awe to see so huge a clock.

Another thrilling trip was to see the rumbling wall of water of the Bridal Veil Falls. Where you had to put on rubber yellow raincoats and sandals. To see that much water and at such force was breathtaking. We still have the pictures and laugh at how we looked in those outfits.

We took many scenic trips and could not possibly remember every place we had gone. In fact, we had walked so much that I had gotten blisters on both of my heels and could hardly walk. We will always remember how funny it was when my husband went to a pharmacist and asked for some blister medication and they asked him where the blisters were. Being we were newlyweds, it was a very common question for him to ask, but took my husband by surprise.

We could not believe the span of the bridge crossing over the Niagara River gorge between the United States and Canada. The sights everywhere were just so beautiful.

My husband wanted us to take a helicopter ride over the Falls but seeing the whirling rapids made me want to postpone such a trip.

By the time we drove to Niagara Falls and had only four days to see and do so many things, it was time to leave. I read of all the places we had hoped to see in the booklets we brought home and hope some day we will be able to see them. We still have the certificate of the Niagara Falls Honeymooners' Society and certificate congratulating us on our marriage. The atmosphere was one of love and happiness and would advise every newlywed to

to honeymoon in Niagara Falls, New
York.

Sincerely,

Mrs. Joyce Sullenkamp
