"Golden Honeymoon Memories"

1943, World War II: My future husband was home from North Africa and able to obtain a 3-day pass. We were married Friday, December 10th, 1943, and Saturday morning departed for a short honeymoon in Niagara Falls.

Buffalo area and Rochester had experienced a winter snow and ice storm, but away we went. The approach to the Falls was a drive through a wooded area. Everything was covered with ice but the sun was shining. To complete the

picture, pheasants were trying to peck through the ice to get some food. We reached the Falls and they were covered with ice at the bottom but lots of spray was going in to the air. The whole scene was so beautiful: like something from the movies.

Dinner and overnight at the Canadian Brock Hotel completed our honeymoon. It is a beautiful memory that we have shared for over 49 years, and I still love to go to Niagara Falls.

Respectfully,

Zydia Fischer
